

Nelson Secco Filho

Senior Product Designer | UX Strategy | Product Discovery | Design Systems | AI-assisted Product Design | Front-end Background
Caçapava, SP | +55 (12) 98124-1764 | nelsonseccofilho@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Senior Product Designer with 8+ years of experience in UX and Product Design and 12+ years building digital products. Hands-on end-to-end across Product Discovery, UX Research, information architecture, user journeys, flows, prototyping, usability testing, Design Systems, accessibility, and handoff. Experience with complex B2B and B2C products across healthcare, insurance, payments, mobility, engineering, and agribusiness, including projects for Embraer, Santander, Bradesco, DASA, REDE, ConnectCar, Salux, and Subiter. Front-end background and practical use of AI, Python, and automation to accelerate research, synthesis, documentation, backlog organization, and functional prototyping around business rules and state logic, while keeping human validation and accountability at the center of decisions.

FEATURED CASE STUDY

HORIZON HIS | Salux Technology | Healthtech

Led a new hospital information system from Discovery to executive validation in approximately three months, translating clinical expertise into user journeys, information architecture, wireframes, interfaces, and a navigable prototype. The solution was approved by leadership and presented at Hospitalar 2025.

CORE SKILLS

Product Design | Product Discovery | UX Strategy | UX Research | Information Architecture | User Journeys | User Flows | Wireframing | Prototyping | Functional Prototyping | Usability Testing | UI Design | Design Systems | Figma | Accessibility | Design Handoff | Agile/Scrum/Kanban | Stakeholder Management | AI-assisted Product Design | HTML, CSS, JavaScript and Git

PROFESSIONAL EXPERIENCE

Nelx Digital Business | Senior Product Designer & UX Consultant

Jan 2012 - Present | Independent consulting alongside formal roles | São José dos Campos, Brazil

- Product Design and UX/UI consulting for B2B products, web platforms, and complex systems, connecting user experience, business goals, and technical feasibility.
- Led Discovery, UX Research, information architecture, journeys, flows, wireframes, prototypes, Design Systems, documentation, handoff, and stakeholder facilitation.
- Applied AI, Python, and automation to research, synthesis, documentation, backlog organization, and functional prototyping; used human review to validate flows, rules, states, and experience quality.

Subiter | UX Lead / Senior Product Designer

Sep 2025 - Jun 2026 | São José dos Campos, Brazil

- Hands-on UX/UI strategy and execution across digital products, with emphasis on the conception and evolution of Subiter's Web Portal.
- Structured information architecture, flows, interfaces, components, and Design System practices to improve consistency, clarity, and scalability.
- Organized and documented products to support continuity, prioritization, and collaboration among Engineering, inspection specialists, and leadership.
- Formally recognized by the company for organization, attention to detail, and contribution to product continuity.

Salux Technology | UX Lead

Feb 2025 - Sep 2025 | São Paulo, Brazil

- Hands-on lead for HORIZON HIS, connecting clinical specialists, business, and Engineering throughout the design cycle.
- Structured user journeys, information architecture, wireframes, interfaces, and a high-fidelity navigable prototype.
- Created the UI Kit, components, accessibility patterns, documentation, and Figma organization from exploration through handoff.
- Supported executive validation, Hospitalar 2025 presentation, and production of a contingency demo video.

Iterative | Senior Product Designer

Mar 2024 - Dec 2024 | Remote | Clients: ConnectCar and Jive Mauá

- Designed the debit-payment journey for ConnectCar across the mobile app and web checkout, plus an exclusive plan experience in partnership with iFood.
- Evolved the FreeFlow Portal and administrative portal with focus on usability, information clarity, and operational efficiency.
- At Jive Mauá, conducted interviews, evolved flows and interfaces, and created a UI Kit for products including Intranet, Indie Asset Pro, and Jive Mauá Pay.
- Collaborated with Product and Engineering on business rules, prototypes, documentation, refinement, and incremental delivery.

Môre Talent Tech | Senior Product Designer

May 2021 - Aug 2023 | Clients: REDE and DASA | São Paulo, Brazil

- At REDE, structured the journey and interfaces for a currency conversion service for international Mastercard and Visa cards, enabling payment in the cardholder's home currency or BRL.
- Redesigned the Maquininha 1.0 experience, modernizing screens, components, communications, and hardware identity without changing the familiar journey; the evolution contributed to approximately 5% lower logistics costs related to device replacement.
- At DASA, worked on Discovery and designed the Canal do Consultor flows to integrate hospital appointment schedules into a single system.
- Participated in field research with 37 interviewees, three NAC locations, four systems, 290 reports, and 57 mapped rules/features; translated findings into journeys, interfaces, backlog items, and Front-end/Back-end integration inputs.

Bradesco and Bradesco Seguros | Senior Product Designer

Oct 2020 - Mar 2022 | MJV Technology & Innovation and Digital Business | São Paulo, Brazil

- Redesigned the Meu Lar Mais Seguro experience, simplifying journeys, flows, and interfaces with focus on usability, clarity, and consistency.
- Designed and evolved Banco Bradesco digital products including Vila PJ, Vila BIA, and Vila Brain, working on conversational flows and interfaces.
- Collaborated with multidisciplinary teams to align user needs, business rules, experience consistency, and technical feasibility.

Zappts | Product Designer

Sep 2020 - May 2021 | Santander / Getnet / Auttar | São José dos Campos, Brazil

- Contributed to the migration of Santander's FLAME Design System from Sketch to Figma in partnership with international consultancy The Cocktail.
- Standardized components, libraries, and interface patterns to improve consistency, scalability, and efficiency between Design and Development.
- Co-created an Auttar UI Kit based on FLAME DS and structured the Design Flow for redesigning active products.

TerraMagna | Product Designer

Sep 2019 - Apr 2020 | São José dos Campos, Brazil

- Structured the company's first UX practices, incorporating client interviews, journeys, flows, prototyping, and validation into product evolution.
- Led the Design Flow for the FIDES platform, translating complex agricultural risk rules into clearer, more consistent, and easier-to-use experiences.
- Created interface standards and aligned with Product and Technology; TerraMagna was later recognized among the 100 Startups to Watch.

NOALVO | UX Designer / UI Hacker

Jan 2019 - Aug 2019 | São Paulo, Brazil

- Role that marked the transition from Front-end to UX, combining information architecture, research, and technical skills in an OOH media buying platform.
- Simplified the journey for locating, comparing, and selecting media points, bringing OOH purchasing closer to an e-commerce experience.
- Designed a map- and geolocation-based experience using Google Maps as a reference and Material Design for consistency, usability, and responsiveness; NOALVO was later recognized among the 100 Startups to Watch.

Tinnova / Embraer | Full Stack Designer

Feb 2017 - Dec 2018 | São José dos Campos, Brazil

- Created wireframes and functional prototypes, conducted user research, and validated use cases for digital products in the aerospace sector.
- Developed Front-end solutions with JavaScript, Angular, Vue.js, Sass, and Git, connecting Design and Engineering in iterative delivery.

Earlier Front-end Experience

2009 - 2017 | Youse Seguros, Slikland, Gráficos Burti, Dennova, Brasilis Marketing and NetBiis

- Developed web interfaces and applications using HTML, CSS, JavaScript, jQuery, Sass, Jekyll, WordPress, Git, cross-browser compatibility, and responsive design practices.

EDUCATION

Universidade Nove de Julho - Information Systems | 2011 - 2014

Colégio Poeta Mario Quintana - Technical Diploma in Data Processing | 2001 - 2003
